RDS Growth Continues!

As 2024 begins, we would like to reflect and share in our growth. In 2023, RDS expanded into Greenville, N.C., we welcomed new team members, promoted those from within, and anticipated another year of growth.

Welcome RDS – Greenville, N.C.

RDS would like to share and welcome the new facility in Greenville, N.C., which was previously operated by ECVC, as well as the employees who made the transition.

We are excited to introduce Larry Blow, (Plant Manager) who has been a leader at this location for a little more than 30 years, Bill Harkley, an original plant Employee,

and Tonya Harris (Scale Operator) who has 13 years of knowledge and experience at the Greenville facility. Tonya shared this, “We are like a family here, most of us have been here for 5-10 years, we know the operation very well. We take a lot of pride and strive daily to maintain the plants success.” RDS thanks the team at the Greenville Plant for their continued commitment and teamwork during the transition and afterwards. We appreciate your dedication to the facility and each other.

Fly Eagles Fly!

Anita joined the RDS Family in June of 2023. She comes to RDS with 25+ years of accounting experience, and 10 years in the recycling industry. Her family is very important to her and her grandson, Brian holds a very special place in her heart, along with her Irish Setter, Finn. She leads the office with a family culture, teamwork in the day-to-day operations. Anita has been a welcomed addition to the corporate office. We look forward to her leading us through new ventures and endeavors in 2024.
